

Into the Sky

Týr

Gone is all my pain
I called her down
As I lay among the slain
I'm unrejected

Come my Valkyrie take me into the sky
Up where heroes of the north go when they die
Forever be our victory
Come my Valkyrie on high

And though I fell
She raised me up.
Made my foes all dwell in Hel
I'm resurrected

Come my Valkyrie take me into the sky
Up where heroes of the north go when they die
Forever be our victory
Come my Valkyrie on high

With sword in hand
On heathen land

Come my Valkyrie take me into the sky
Up where heroes of the north go when they die
Forever be our victory
Come my Valkyrie on high
