

Best Of Me

Tyrese

What a joy it is to be loved by you
My most precious gift, my guardian angel
I believe god sent you here to slow me down
And so whatever it takes, I'mma keep you around baby.

I feel I could conquer the world with you by my side
'Cause of your unconditional love baby that's why
You bring out the best in me, cause you are the best baby.
And if I had to do it again (I'll still choice you girl)
You bring out the best in me, cause you are the best baby.

Baby girl your my life, and if you ever leave me I'd die
'Cause I never ever had a love so pure.
It's because of you I'm sure,
And with you by my side girl we could conquer the world, Heyy
I feel I could conquer the world with you by my side
'Cause of your unconditional love baby that's why
You bring out the best in me, cause you are the best baby.
And if I had to do it again (I'll still choice you girl)
You bring out the best in me, cause you are the best baby.

So if you feeling like you got that girl, you think she's the best,
You think she's the world.
Throw your hands up and sing to the world.
She's the best, she's the best girl
So the next time you see a chick and she thinks she fine look her in the
Eyes
Be like nah nah, she can never be like mine, mine.
'Cause she's the best, she's the best girl.

You bring out the best in me, cause you are the best baby.
And if I had to do it again (I'll still choice you girl)
You bring out the best in me, cause you are the best baby.

You bring out the best in me, cause you are the best baby.
And if I had to do it again (I'll still choice you girl)
You bring out the best in me, cause you are the best baby.
