

# One Night

Tyrese

She walked in the club, straight to the bar  
Came with the girls, gonna leave with a star  
'Cause I got everything that she needs (I got you)

She just my type, body looking right  
Where she gonna get by the end of the night  
In my bed, and on top of me

I can tell she a freak, trying to keep it on the low  
Don't worry about it baby, ain't nobody gonna know  
Come sit right here next to me, yeah  
You're all about the Rose OK, don' worry about it shawty, it's on me  
Satisfaction guarantee

All you need is one night, one night  
One night with me,  
If you had one night, one night  
I promise you'll never leave  
Yeah cause what I got's gonna mess your mind up  
Give me the body I'm a fix that right up  
I'm about to change your life  
All I need is just one night, just one night (night, night)  
All I need is just one night, just one night (night, night)  
All I need is just one night

Now now now baby don't act surprised, I'm about to blow your mind  
I'll have you dripping like water, in the middle of the summer  
Last call, last call, last call for alcohol  
Can you meet me in valet, black on black riding outside on Pirellis  
Drop the top girl just get in  
Hear lady hair blowing in the wind  
She can't keep her hands off me  
Got me feeling all on her body  
You want a little foreplay, okay  
Seems like you're ready,  
Twelve play, knock, knock, knockin' the boots  
Now the shit sounds chopped up an' screwed

All you need is one night, one night  
One night with me,  
If you had one night, one night  
I promise you'll never leave  
Yeah cause what I got's gonna mess your mind up  
Give me the body I'm a fix that right up  
I'm about to change your life  
All I need is just one night, just one night (night, night)  
All I need is just one night, just one night (night, night)  
All I need is just one night, just one night  
I'm a get straight to the point, baby  
All I need is just one night, just one night  
You won't be disappointed baby  
All I need is just one night, just one night.
