

# Baby Dont You Change

Tyrone Wells

First time I saw you standing on the corner  
Thought maybe I'd died and went to Heaven  
But I got to thinking and baby, I knew better  
'Cause I know that angels dont, angels dont wear high-  
healed shoes  
I don't need an angel  
That don't fly around the blue  
I'd be more than grateful  
With a woman that was just like you

Sweet baby don't you change baby don't you change  
Baby don't you change, baby don't you change a thing  
No baby dont you change a thing  
You don't need no angel wings  
You look so good you make a grown man scream oh baby no, baby n  
o  
Don't you change a thing

First time I saw your face on a photograph  
I thought maybe I was looking at the cover of a magazine  
oh oh oh  
But I got talkin' to you and baby, I knew better  
'Cause I know most models don't, models dont know how to hold a  
conversation  
I don't need a model, you can let 'em  
flirt around the page or the stage  
I'd be more than grateful  
With a woman that had your face

Sweet baby don't you change baby don't you change  
Baby don't you change, baby don't you change a thing  
No baby dont you change a thing  
Got no love for a magazine  
You look so good you make a grown man scream oh baby no, baby n  
o  
Don't you change a thing  
No, no, no, no, no, no

Baby don't you change a thing  
Baby don't you change a thing  
Baby don't you change a thing  
Baby don't you change, baby don't you change a thing
