

# Happy As The Sun

Tyrone Wells

Whenever this world gets the best of me  
And it all goes wrong  
I count down the hours till the time we meet  
And I move along  
'Cause I know that when I see you I will be

Happy as the sun, lighter than a feather  
Walking on the clouds when we are together  
Every day with you just keeps getting better  
The world's as it should be, when are you here with me  
Here with me

Whenever you leave, my heart skips a beat  
Unless you are here, I am incomplete  
Like an undone song  
Only you inspire the melody in me

Happy as the sun, lighter than a feather  
Walking on the clouds when we are together  
Every day with you just keeps getting better  
The world's as it should be, when are you here

How could I go wrong  
When you are here with me  
How could I be anything but smiling

I'm happy as the sun, lighter than a feather  
Walking on the clouds when we are together  
Every day with you just keeps getting better  
The world's as it should be, when are you here with me
