Sometimes I get so tired
Just trying to find a place
To lay my head
I look up to the sky
I feel the warmest light comfort me

I've seen the great heights
Reminding me... that I'm alive

I don't wanna die
I don't wanna waste another day
Or night
I know there's something more
Than what we're living for
I see it in the stars
I feel it on the shores
I know there's something
I know there's something more

I think we're all afraid
That we might be alone
Alone down here
We all want to have some faith
At least that's true in my case
To just believe

I've seen the great height
Reminding me... that I'm alive

I don't wanna die
I don't wanna waste another day
Or night
I know there's something more
Than what we're living for
I see it in the stars
I feel it on the shore
I know there's something

This world may crumble
Into the ocean
It could all end tonight
I undermined you
Then tried to find you
My only source of light

There breathing
I am
Breathing
I am
Alive

I don't wanna die
I don't wanna waste another day or night
I know there's something more
Than what we're living for
I see it in the stars
I feel it on the shore

I know that I'm alive

I don't wanna die

I don't wanna waste another day

Or night

I know there's something more

Than what we're living for

I see it in the stars

I feel it on the shore

I know there's something more
