

# No Good Without You

Tyrone Wells

Talking all night while the radio  
Plays songs we love were dancing slow  
It's good to be with you  
Then two years later you were running late  
But I knew you were worth the wait  
So I held out to see you

Day turned to night I was still alright  
Cause I knew you'd be calling  
Days turned to weeks love was springing leaks  
Like rain it was falling  
Cause baby it's

No, no good without you  
Every thing's wrong since you've gone away  
I try to follow my dreams  
But they're all about you  
So where can I go when honey  
I know that it's no good without you  
hey hey hey hey baby

Saturday night I'm alone again  
I'm losing my mind caving in,  
Cause baby I miss you  
Every thought every where I go  
Every song on the stereo  
is reminding me of you

I play my guitar and I'm told to stop  
but your love was amazing [x3]  
But I've got to move on cause your love is gone  
And there's no sense in waiting but baby it's

Everything fades from you, all I see is you  
I'm barely breathing, always daydreaming, all I see is you  
What I need is you cause baby it's
