

# This Is Beautiful

Tyrone Wells

Hey get your things it's time to go  
You make me glad I'm not alone  
In silence we hear the tires upon the road

I turned to you and asked you why  
You're so awake you must be tired  
You say when we're apart you'll close your eyes

This is beautiful  
This is beautiful  
Unmistakable  
This is beautiful

We spent the day in central park  
I wrote my name down on your arm  
You set off avalanches in my heart

This is beautiful  
This is beautiful  
Unmistakable  
This is beautiful

I never could have seen  
Never could have seen this coming  
The most amazing things  
They arrive within a moment  
I never could have seen  
Never could have seen this coming on

I never could have seen, never could have seen this coming  
You are here with me, I'm alive all of a sudden  
Anyone can see, anyone can see it's beautiful

You set off avalanches in my heart (4x)

This is beautiful  
This is beautiful  
Unforgettable  
This is beautiful
