

# Until You Are Here

Tyrone Wells

I always knew you were out there somewhere  
I could feel you in my soul  
Your song inside of me  
Everywhere I go

In the rain I could hear your whisper  
In the storm I could hear your scream  
I will be waiting, dreaming until

You are here  
Until you are here  
I am undone  
Until you are here

Every star in the sky is shining  
All beauty bears your name  
Your voice is calling me  
All along the way

I am filled with the deepest hunger  
I am filled with a burning thirst  
I will be waiting, yearning until

You are here  
Until you are here  
I am undone  
Until you are here, here, here

I am undone, I am undone  
I am undone, I am undone  
I am undone, I am undone  
Until you are here

Until you are here  
Until you are here
