

Blood Money

Tysondog

Death comes to all who cross me
Destroyed with malevolent grace
It's a dangerous game
Lose your hold on the flame
And it's wraith can explode in your face
I live my life beyond the realms of any law
Who cares what I'm fighting for

Blood money
Remember the words of a fatherless child
Blood money
The pain that you felt is erased from my mind
Blood money

Pray to your God that He'll spare you
The coldness of deaths beckon call
Just pay me the price of another man's life
And I'll show him no mercy at all
I live my life beyond the realms of any law
Who cares what I'm fighting for
