## **Black Widow**

I just love my nightmares I can't wait to sleep Enjoying all my dreams got no regrets I can be a flash of lightning Striking down on rocks Burning down the law Getting things I never got Turning the world Nothing unheard One night can be more than a day Just like a black widow Like a black widow I can't stand the dreamers Scared of things that fly They just have sweet fantasies And fade and die Nightmares- are so good, so good And they always end just when they should Nightmares are cool, nightmares are cruel I love the fun and the thrill Just like a black widow Like a black widow Black widow Just like a black widow Here comes the morning And who can deny Leaving the dream is so hard I love my nightmares I await their return And this time, I'm dressed to kill, dressed to kill Just like a black widow.....
