

Death Ride

U.D.O.

No matter what your creed or what your color No matter if you rich or poor We walk the line, some end up in hell Some get a bucket of fear

You tell me you're on a fucking mission Let me tell you, that you are wrong Who needs the word of your religion, for your perfect state

C'mon stop talking, so keep on walking You got a sickness in mind Don't need your madness, so keep your sadness I've got a ticket in mind

We're on a death ride - we cannot wait much longer We're on a death ride - some of us take longer We're on a death ride - not only for the stronger We're on a death ride - feel the storm of hunger We are all insane

Ride begins and we will leave the station Leave behind temptation - and faith Turn out the light - and say goodnight Hello to - end of all days

There never was a choice or a decision Let me tell - no other way Never gonna be an intermission - you are here to stay

C'mon stop talking, so keep on walking You got a sickness in mind Don't need your madness, so keep your sadness I've got a ticket in mind

We're on a death ride - we cannot wait much longer We're on a death ride - some of us take longer We're on a death ride - not only for the stronger We're on a death ride - feel the storm of hunger We are all insane
