

## Death Ride

U.D.O.

No matter what your creed or what your color  
No matter if you rich or poor  
We walk the line, some end up in hell  
Some get a bucket of fear

You tell me you're on a fucking mission  
Let me tell you, that you are wrong  
Who needs the word of your religion,  
for your perfect state

C'mon stop talking, so keep on walking  
You got a sickness in mind  
Don't need your madness, so keep your sadness  
I've got a ticket in mind

We're on a death ride - we cannot wait much longer  
We're on a death ride - some of us take longer  
We're on a death ride - not only for the stronger  
We're on a death ride - feel the storm of hunger  
We are all insane

Ride begins and we will leave the station  
Leave behind temptation - and faith  
Turn out the light - and say goodnight  
Hello to - end of all days

There never was a choice or a decision  
Let me tell - no other way  
Never gonna be an intermission - you are here to stay

C'mon stop talking, so keep on walking  
You got a sickness in mind  
Don't need your madness, so keep your sadness  
I've got a ticket in mind

We're on a death ride - we cannot wait much longer  
We're on a death ride - some of us take longer  
We're on a death ride - not only for the stronger  
We're on a death ride - feel the storm of hunger  
We are all insane
