

## Devil's Rendezvous

U.D.O.

I walked on through the hallway  
Turned right to purgatory  
An angel of the darkness  
Invited me to stay  
I had my invitation  
Not knowing what to do  
and this is what had happened  
At the devils rendezvous  
[Chorus:]  
At the devil's, the devil's  
The devils rendezvous  
At the devils the devils  
The devils rendezvous  
The nasty girls were dancing  
Eternally aflame  
A thousand eyes were watching  
And played the devil's game  
And bones on the piano  
Shattered by the booze  
And this is what you're up to  
At the devils rendezvous  
[Chorus x2]  
You got cheap red whine and a lot of time  
Whisky and cigars  
In the dim red light there's a ball tonight  
At the devil's dancing bar  
[Chorus x2]  
Do not begin to like it  
You're better off without  
Your final rest created  
That's what it's all about  
The cards are stacked against you,  
The words are never true  
There might be no returning  
From the devil's rendezvous  
[Chorus x4]
