

## Eye of the Eagle

U.D.O.

Mother nature comforts us  
Embraces to her breast  
Fields of gold and icy plains  
We feel her great caress  
Cocooned by earthly majesty  
A cosmic jewel in time  
Surrounded by a giving sun  
It's good to be alive  
Pasture lands and silver streams  
Finger through the land  
Magnify the hopes and dreams  
Moving living sand  
Canyons wind and trembled winds  
Mountains touch the sky  
It's nature's breath we all depend  
It's good to be alive  
Oh - the eye of the eagle  
Oh - finds it all  
Oh - the eye of the eagle  
Oh - sees it all  
Sounds of silence fill the air  
A diamond in your palm  
The elements in harmony  
Innocent and calm  
So stand alone and touch the stars  
Heaven will be kind  
Feel the love of brotherhood  
So good to be alive  
Towering woods of dignity  
Oceans giving birth  
Arose a host of energy  
A hail to mother earth  
Never blind the eagles' eyes  
Keep wind beneath their wings  
Living free and soaring high  
Good to be alive
