

## Hell Bites Back

U.D.O.

Hell bites back  
Hell bites back  
You'll do the time  
And that's a fact  
Your lesson has begun  
No prison life  
Can offer back  
You gotta walk the line to come  
Now comes the time when the payment is due  
Now it's the time to go on  
I know that  
Hell bites back  
Hell bites back  
It may be right  
It may be wrong  
When they close your door  
You'll hate the day  
And fear the night  
You gave the finger to the law  
Never surrender - cover your back  
Nothing to stop a stab in the back  
Never give in - never give out  
Better be good - never get out
