

## Holy

U.D.O.

Raised from the glowing ashes of cauldron iron  
The Phoenix arose from the sanctum of metal  
Emerging into the light  
So many hard times  
So many bad lies  
A man of steel  
You know I'm real  
Ev'rything I do  
I'm taking all control - it's my heart  
You know it's how I feel  
So stick it in your mind - now you're mine  
Time - it's time I'm taking over  
And crank it up in overdrive  
I'll tell you why  
You know I'm holy  
So fucking holy - raise your hands  
You know I'm holy  
So fucking holy - pain and pride  
So many places  
So many aces  
I made a curse  
I gave you birth  
Ah - glorious metal times  
The master of our lives - never died  
A special kind of force  
Together no remorse - you'll be mine  
Burning on overload  
Legends won't die  
No cross - no burdens to control  
No asking why  
The master never dies
