## **Lost Passion**

Welcome hello, please take your seat We leave now for a trip- in hell Now we can start especially for you- join us now! Shattered dreams, in shattered faces Crawling off the stage Forgotten heroes lost their passion, many years ago Time after time in your life You're burning your world of illusions Tearing your conscience apart Lost Passion Now you can see, you can see what it means To come to a world of lies, all such lies Think about your destiny- the love you found Was it just a dream, just a dream Shattered dreams, in shattered faces... Time after time in your life You're burning your world of illusions Tearing your conscience apart Lost Passion- Lost Passion Time after time in your life You're burning your world of illusions Tearing your conscience apart Lost Passion- Lost Passion- Lost Passion [SOLO] Time after time in your life...
