Manhunt

We're straining at the leash We smell the human meat The only way for us to go The order of the pack Command is kill - attack Obey the master's law Bad temper rules our minds The hunt is on this time We can't wait No way to stay alive The prey is finalised It's total genocide We're on the manhunt - we keep on pushing We're on the manhunt We're on the manhunt - we keep on pushing We're on the manhunt We train our deadly pride No way for man to hide We're always aiming for your neck This is your final day Just believe and pray We're feasting on your eyes We're on the manhunt - we keep on pushing We're on the manhunt We're on the manhunt - we keep on pushing We're on the manhunt - this ain't no suicide What is the victim's face - not us who's wrong The terror of the chase - can't be undone We turned the game around - not us who's wrong You made us go to ground - can't be undone We're on the manhunt - we keep on pushing We're on the manhunt - this ain't no suicide We're on the manhunt - we keep on pushing We're on the manhunt - try to hide - no way to run
