

## Never Cross My Way

U.D.O.

Just in time - I realised  
Your words - not true  
Everything or nothing  
It was hard for me to do

What I decided - not forever  
You - for me is history  
You have twisted me - talking to a wall  
Just keep away from me

So if you ever cross my way  
If you ever cross my way  
So if you ever cross my way  
I won't be hiding - hiding away from you

In the morning when I wake up  
My mind is full of hate  
But nothing lasts forever  
For you I stay awake

I was the crown - you are the poison  
Like a shadow - hanging over me  
Thrown away the key - just keep away from

[Repeat Chorus]
