Number For A Number

U.D.O.

There are secretes better left alone, like Pandora's
Box
Throw away the master key, high-tech fantasies
And the mystery of our history, stories been untold
Some words have been classified, hide the danger code
[Bridge:]
The scream to stop they silence, they're working on to
win
Blindedy by their science they carry on the sin
[Chorus:]
Scream killers – Right and always wrong – Scream
killers
They are the scream killers– Always go too far – Scream
killers
(Never go too far)
Universal energy, the world is not enough
Science of insanity, 'n' one day time is up
And they all dismiss the reason why, playing with our
fate
Cast away the destiny, stop – or it's too late
[Bridge]
[Chorus]
[C-Part:]
Corruptible intruders seed the dragon's liar
Exposing generations, fall out's in the air
Scientific medding, technology unleashed
Microbiotic pahsing, the helix of the beast
Even if there is a master code deep inside withing
Follow nature's symphony, the only way to win
And the time has come to turn on the game, make your
final choice
Listen to your heart and soul, mind the inner voice
