

# Rebels of the Night

U.D.O.

Ring the bell and sound the warning  
Heavy cannon burning guns  
Will we ever reach the morning  
And feel the rising sun

Iron barricades on fire  
Can you smell the sweat of fear  
Blood is flowing like a river  
Screaming people everywhere

Can you hear - the scream of fear  
Chaos had begun  
Just beware - they don't care  
You better start to run

They are rebels of the night  
Ready for the fight  
And rolling thunder comes  
They are rebels of the night  
Fighting for a price  
Another battle has begun

Corrupted leaders and deceivers  
At the table full of shit  
Enemies of non believers  
Another mother another kid

Can you hear - the scream of fear  
Chaos had begun  
Just beware - they don't care  
You better start to run

They are rebels of the night  
Ready for the fight  
And rolling thunder comes  
They are rebels of the night  
Fighting for a price  
Another battle has begun

Rebels of the night  
Ready for the fight  
Fighting for a price

Rebels of the night  
Fighting for a price  
Ready for the fight

Can you hear - the scream of fear  
Chaos had begun  
Just beware - they don't care  
You better start to run

They are rebels of the night  
Ready for the fight  
And rolling thunder comes  
They are rebels of the night  
Fighting for a price

Another battle has begun

Rebels of the night  
And rolling thunder comes  
Fighting for a price  
Another battle has begun
