

## Silent Cry

U.D.O.

Dancing in the daylight - all just been so fine  
And heartbeats keep on going - all the time  
Don't you hear the calling - don't you see the falling  
All the cries  
Can't you get the warning - how the pain is dawning  
See the signs  
When eyes don't see - and hands don't touch  
It's all been a pack of lies  
When hearts don't feel - it's all too much  
It's just the sound of a silent cry  
Just the sound of a silent cry  
Crying in the moonlight - darkness closing in  
I fear for the heartbeats - wondering  
If we come together - is it so much better  
I don't know  
Why are we not trying - ending all the crying  
Giving hope
