

Stay True

U.D.O.

I've moved some mountains I'm telling you I've crossed the rivers
Just to be with you I'm boiling metal I am your sin I am your
nemesis I change you from within

I fill you up With everything you need I am your chariot - with
speed

Stay true - to you I see your hungry eyes It's you - stay true
No need to roll the dice Stay true - to you I feed your hungry
eyes Stay true - do you Stay true - to you

I burn the heavens I'll let ya know Across the nation Out to bring
you hell A target power I've pulled the pin I'll be your genesis
And play the bloody game

I fill you up With everything you need I am your chariot - with
speed

Stay true - to you I see your hungry eyes It's you - stay true
No need to roll the dice Stay true - to you I feed your hungry
eyes Stay true - do you Stay true - to you

[Solo]

I fill you up With everything you need I am your chariot - with
speed

Stay true - to you I see your hungry eyes It's you - stay true
No need to roll the dice Stay true - to you I feed your hungry
eyes Stay true - do you Stay true - to you
