

## Streets of Sin

U.D.O.

We are the boys who will guide you through  
Hard cracked runaways, take no fools  
Grey slab concrete, iron and bone  
Don't look back, you'll be screwed to the floor  
Kickback Cadillacs, ragged and cold  
Red mist chicane switchblade zone  
Look back in anger and you'll be done  
Kissing the barrel of a steely gun  
Streets of Sin  
Streets - Streets of Sin  
We are the guys who will make you move  
Hip Hop renegades, the Gangsta' groove  
Leather and Metal, Granite and Steel  
We are the gang who will fix the deal  
Jump suit, razor sharp, pinstripe mean  
Headlights, fast nights, rugged and real  
To hell with the devil, we shout it loud  
All in together and we're standing proud  
Streets of Sin, ...
