See horizons lie
Call your fate your sign
On your way, still your own
Marching from your home

So you lost - so am i
It makes you breathe
Tell me why - have you been gone
Where you been
I change your time

He is the timekeeper - messing with your mind Time keeper - watching over you He is the timekeeper - making all the rules Timekeeper - coming over you

Out of sight and wrong - so wrong Timeline dead and gone - are gone Universal clash - a clash Cleaning human trash

So you lost - so am I
It makes you breathe
Tell me why - have you been gone
Where you been
I change your time

He is the timekeeper - messing with your mind Time keeper - watching over you He is the timekeeper - making all the rules Timekeeper - coming over you

\_\_\_

He is the timekeeper - messing up your mind Time keeper - lording over you He is the timekeeper - changing all the rules Timekeeper - you still don't have a clue
