

Yo, Inspectah Deck track  
Break your back yo

A message of a wreckage  
Fifty shell hot track leaking out the Lexus  
Eyes hot, Cyclops, cyborg boulders  
Call shop of horrors, Lyric just smoking in my holster  
Whip and boil, lugotan hurricane the holler  
Daily operation, bullet train tingle farther  
Eight seconds a scar your style wild buccaneer  
Round table revolve around ten musketeer  
Think you, got all the riches  
Think you poli with bitches  
You could run the fuck opponent, gotten with the glitches  
The swiftness, hit the spots that are vital  
Shake the ground decent, like 3 sticks of dyno

My administration deceive the population  
Start the next generation by artificial insemination  
Contaminate stations, for music in the making  
Concentration camps, Assassinate for industry domination  
Abomination, The Competition and confrontation you mistaken  
I'm a nuclear warhead bomb evasion  
Extermination of the next man, when the German's blazing  
We burn this for occasions, regardless I see your expiration  
Preparation your sweatin',  
I cassette deck and eject your selection for air time  
Blow a hole through your brain so you can think with a clear mind  
A redesign? of hard rhyme, and slang cracking in spare time

Crime Time  
We rollin' with the undisputed, routin' toutin'  
21 gun solution', new recruiting  
Wu-Tang, slang bang your unit  
Put us in your cassette deck, yo, improvement  
Smash and blast the shit, I'm doper than math  
That makes you level through the devil  
And never surpass  
The stakes is hot, like bullet snatch pots  
And hot twats  
Fully operational gats mmhmm  
The uncanny, vilagialaty panty man  
Crock, took by the hook of the candy man  
Look, now you caught up in the suction  
Rap Tight and my appetite destruction

Today's day, The bomb gets dropped on America  
Human civilization in concert treble concentration camps  
Replacement amps blown, Speaker abduction  
The Mad weed seduction corruption  
From The brain cells decreasing  
Its sucker duck season. fuck treason  
Blast as you trespass, bullet enters your mouth and exits your ass  
Impregnate the math, then give birth to a newborn  
Figure of speech drew form, with 8 arms  
Napalms, collapses stages you perform on dominate  
Drama face, abominate, sling crack behind the black high gate

The nine fades the hearts of men  
Slip the cartridge in  
Off the hook like telemarketing sales condone over the phone

Danger zone  
Bozzy Capone alone, in a terradome Stalon  
With a great cannon, bones cerebral swollen  
Straight both ways scanning  
All you roaches lay down I spray the brain damage  
Bring the banners, the green gamma ray  
Gain up the same data, Scatter  
Then a dark part where D and you used to play all day  
The ray sound stung you, You kung fu check the cleaner  
From fire line I gun you for fun  
Dial nine one one  
Someone tore down the tunnel son  
One two check your fronts  
Captain Crunch, munch on you for lunch  
You punchbag drunk, bald headed monk  
Top bunk, chunk your trunk full of junk  
Buffer and bump stop humping me  
Ruff a scum sucking mothafuckas,  
Ducking my shit just luckily

Other emcees made a big mistake  
Fronting on the mic that's truly great  
What? how you want it fried or baked  
I place in right through the heart of a snake  
Sceam at maps, take what we can take  
Til the day we die, meet the pearly gates  
Golden Arms going strong, I'm holding weight  
'Cause
