

## Wu-tang

U-God

You ain't heard us in a minute, you heard us in a minute, man  
(Wu-Tang! )  
I keep banging on you niggas, finger on my trigger, man  
(Wu-Tang! )

I love bankrolls, stank hoes, camera shots, Kangols, bangles  
Pink records, check it, yeah, I make those  
More paper than Kinko's, check my lingo, bingo  
On my face, honey, not a wrinkle, trinkle  
My twinkle twinkle, make your toenails crinkle  
Twist up a dinkle, and honey, let's mingle, jingle  
When the nightfall, I'm tight with my white walls  
The greedy pain, draining on my life force  
Behold the pale white horse, the hype loss with tight jaws  
Fight law off, cause I don't like ya'll  
Huh, I'm from the tar pits, the hard target to squash the market  
You're brain washed, watch the starships  
I make cars flip, Deck bomb atomic, Islamic arms  
Kiss the comet, this time, he's gone  
I grip the don, rip arms out the socket, cock it  
Fly logic, now watch me sky rocket, watch it  
Hot as the tropic get, bulletproof asaphogus  
Steel cage confidence, burn it on a floppy disc  
Swerve the metropolis, my whole team in back of me  
You just a half of ki, I'm a coke factory

You ain't heard us in a minute, you heard us in a minute, man  
(Wu-Tang! )  
I keep banging on you niggas, finger on my trigger, man  
(Wu-Tang! )  
(2x)

Yo, thank god it's Friday, like it's just me and my chick  
Cruising the highway, she twisting my piff  
You see I'm living proof that crime pay, the type that go at a bitch  
The type to shoot the gift, and blow every clip  
I know this money like the back of my hand, you get the back of my hand  
Just like a fiend who took a package and ran  
Po-po be hopping out of passenger vans, harrassing niggas in Park Hill  
For marked bills, ratchets and grams  
So I move like I'm ducking a charge, I'm trying to set up shop  
Get this gwop, get the fuck out of dodge  
Most my niggas like to puff in the car, most these hoes emotionally scared  
And keep the works stuffed in they bras  
This is ghetto rap, where the pot be calling the kettle black  
My bullets tryna see where they head is at, I'm heading back  
To the slums, back to the block, I got the Clan on my back  
And you know we heading back to the top, nigga

You ain't heard us in a minute, you heard us in a minute, man  
(Wu-Tang! )  
I keep banging on you niggas, finger on my trigger, man  
(Wu-Tang! )
