

Bubble Gum

U.S. Bombs

Shampoo, lollipop, rich boy ya wash a lot.
Soap suds & your milk duds, your empty head's a block

Thats where yer comfortable,
Thats what ya can afford
The underground is openin'
You don't gotta look at the world

And you can all go drown alone
Me the right is really wrong
A suntan model man
And the fancy cars ya stole

Thats where yer comfortable,
Thats what ya can afford
The underground is openin'
You don't gotta look at the world

Your face is swollen up in bubble gum
Substance blowing up
Swollen up in bubble gum
Substance blowing up

No freedom or justice for all
Bringing in people redemption call
They're over there cloning in pairs
Taken my job for skars
Your people, taking the land
We're over there does liberty stand
Your swollen up in bubble gum
substance blowing up
