

## New Killer

U.S. Bombs

Quiet knocks on the front door  
Delivery eat the liver  
Pizzas for the stocking killer  
Feed it to the head in the freezer

Ravaging inside the trash  
They're all on speed  
Place your bets the worms crawl in  
My bodies in the grave

Shouting in my rooms no good  
I won't be saved  
Take the handcuffs off me now  
I smoke in chains

No, no, no, no, no, not again  
No, no, no, no, no, not again  
(Skip one)  
Not again  
No, no, no, no, no, not again  
(Skip one)

Deep sleep ain't what it used to be  
Place your guns onto the bar and keep me company  
Eyes as black as frying pans and wilmas on T.V.  
Billy Ruebens burns the blood don't move it stings

New killer  
New killer  
New killers, yeah  
No, no, no, no, no, not again, yes again
