

War Birth

U.S. Bombs

In '64 there's a milk man at the door
Heard the battle family had a new born
Baby named eddie was a product of the trailer parks
His military father died when he was four drop
Kids drop dead they're drafted from a crib war
Birth war birth eddie battles got no chance far
Away in fighter planes, so many die in bombing
Raids yer an old man at the age of 19 they sent him off
To sea to sink in a submarine all the leaders they got the masses
To believe march until yer dead do all the rest will be free
Death is democracy life is anarchy shoot the president I want to
fuck yer queen

[chorus]

Eddies in the scouts & dreams about m-16's
Mom swims in a bottle for breakfast everyday the kids don't get
along
Embarrassed of his home he hates his pops who left and wants to
do the same
