

# The Blackout

U2

Got a star, wonders why it's still off the earth, yeah  
A meteor, promises it's not gonna hurt, yeah  
Earthquake, always happen when you're in bed, Fred  
The house shakes, maybe was it something I said, Ned

Go, easy on me, easy me, lover  
Go, easy on me, easy on me now

When the lights go out, it's all you talk about  
In the darkness where we learn to see  
When the lights go out, don't you ever doubt  
The light that we can really be

Statues fall, democracy is flat on its back, Jack  
We had it all, and what we had is not coming back, Zack  
A big mouth says the people, they don't wanna be free for free  
The blackout, is this an extinction event we see

Go, easy on me, easy on me, lover  
Go, easy on me, easy on me, now

When the lights go out, it's all you talk about  
In the darkness where we learn to see  
When the lights go out, don't you ever doubt  
The light that we can really be

When the lights go out  
When the lights go out  
When the lights go out  
When the lights go out  
When the lights go out

Blackout, it's clear, who you are will appear  
Blackout, no fear, so glad that we are all still here

When the lights go out  
When the lights go out  
When the lights go out

When the lights go out, it's all you talk about  
In the darkness where we learn to see  
When the lights go out, don't you ever doubt  
The light that we can really be

When the lights go out  
When the lights go out  
When the lights go out  
When the lights go out  
When the lights go out
