

## Your Blue Room

U2

It's time to go again  
To your blue room  
Got some questions to ask of you  
In your blue room

The air is clean  
Your skin is clear  
I've had enough fun hanging 'round here  
It's a different kind of conversation  
Your blue room

Saw me coming  
In outside  
Saw me coming  
Somewhere I can hide

And time is a string of pearls...your blue room  
(I'm a swinger)  
See the future just hanging there...your blue room  
A new frame, a new perspective  
Looking down on my objectives  
Your instructions whatever their directions  
Your blue room

Saw me coming  
East by the moon  
Saw me coming  
Can you feel

(It's alright)

Your blue room

One day I'll be back...your blue room  
Yeah, I hope I remember where it's at...your blue room

We see me slide  
Won't you give me a home  
So much for change

Zooming in  
Zooming out  
Nothing I can't do without  
A lens to see it all up close  
Magnifying what no one knows  
Never in company  
Never alone  
No car alarm  
No cellular phone
