

Night In Motion

U96

In motion
I am here
And you are here
And we are here
To keep the night in motion

Let the beat when the light comes down

I am here
And you are here
And we are here
To keep the night in motion
In motion

I am here
And you are here
And we are here
To keep the night in motion

I am here
And you are here
And we are here
To keep the night in motion

And we are here
To keep the night in motion

Let the beat when the light comes down

And you are here
And we are here
To keep the night in motion
