

# Night In Motion

U96

In motion  
I am here  
And you are here  
And we are here  
To keep the night in motion

Let the beat when the light comes down

I am here  
And you are here  
And we are here  
To keep the night in motion  
In motion

I am here  
And you are here  
And we are here  
To keep the night in motion

I am here  
And you are here  
And we are here  
To keep the night in motion
