In a little while
I'll be on my way
Got no words to express
What I need to say

R: Every time I think about the first time We said hello
You know when you know
You never let go

It's just not my style
Something I can't do
After all this time
I'm scared of losing you

R:

Is there anything
You could let me know
Surely you could find me
A reason not to go

R:

After everything We've been going through I'm so up and down So dizzy and blue

R:

Let me one more time Look into your eyes I remember when There were no goodbyes

R:
