

Freestyler

UB40

Say we a just freestyle it
Because we wicked and wild it
Because we know how fe run it
And we just can't done it
And you know say we like it
And we have to excite it
If you come a dance
I say you might get frightin'
Because you know say we live it
And you say we love it
There is very few things I coulda really put above it
I love the booming of the base in a the speaker boxes
The treble in the tweeters it just
A tear off me hat see

I said you just can't trap it
I said you just can't unwrap it
Say you justs can't take it
Say you know you have to find it
Deep down in a your soul I say you have to feel it
Little after that you a go want to reveal it
Coz music is a thing I say you
Know you have to share it
If me couldn't do that
Me just couldn't bear it
'cause the love for the music on me
Sleeve me have fe wear it
Deep down in a me heart I said you
Just couldn't tear it

Me no like them journalist man
Dem come from different land
Say we is a white reggae band
Open your eyes no man you must
Be blind no man
You gwan like your cool man
Your heart must be black no man
Full of bad intention
We is dub organizer
A little oder and wiser
We no like wife beater spreading
Love would be sweeter
Out of many nations yes we are one
Just like the motto if you is Jamiacon

Deep in a the night the musics calling
Deep in a we hearts you know we're
falling in love
It's like a religious calling
Calling calling you better send out
A warning
Calling calling you better send out
A warning
