

## Gotta Tell Someone

UB40

I gotta tell someone, can anyone hear me  
The girl of my dreams just told me that she loves me  
She whispered and I was consumed so completely  
Lost in the love that I feel whenever she's near me

She's got me wishing for something thats missing  
Staring at the stars getting high on her kissing  
Now i got my girl my girl got me  
We're making plans for a family

I gotta tell someone, can anyone hear me  
The girl of my dreams just told me that she loves me  
She whispered and I was consumed so completely  
Lost in the love that I feel whenever she's near me

Together we'll stay come what may  
Nothing come between us or get in our way  
This is for real, the really big deal  
At last we've found someone who knows how we feel

I gotta tell someone, can anyone hear me  
The girl of my dreams just told me that she loves me  
She whispered and I was consumed so completely  
Lost in the love that I feel whenever she's near me

She took me out walking I should not be talking  
Whispered in my ear but I'm telling you nothing  
If I were you; you know what I'd do  
Get one of your own so you can whisper too...

I gotta tell someone, can anyone hear me  
The girl of my dreams just told me that she loves me  
She whispered and I was consumed so completely  
Lost in the love that I feel whenever she's near me
