

I Did What I Did

UB40

I did what I did and I cannot deny
Im guilty as charged now I cant tell a lie
So please take me down for the rest of my days
And remind me that I must mend my wicked way
Theres a longing in my soul
A quickening hear in my heart
I cant breathe, Im drowning in you
And I have been right form the start
I dont know how it started but heres how it ends
Were both broken hearted cant even be friends
But the hurt we are feeling could never compare
To the pain that we cause when we loved without care
Theres a longing in my soul
A quickening hear in my heart
I cant breathe, Im drowning in you
And I have been right form the start
Sinking deeper now were apart
Theres a longing in my soul
A quickening hear in my heart
I cant breathe, Im drowning in you
And I have been right form the start
And now in the cold light of lonesome and blame
I swear I will never walk that road again
So I, Im confessing to all I have done
Im confess Im so happy that I was the one
Theres a longing in my soul
A quickening hear in my heart
I cant breathe, Im drowning in you
And I have been right form the start
Sinking deeper now were apart
