## **Hands And Knees**

You see me walking away What more could I say than sorry I failed by all your complaints You pushed a life change but it's not me And filthy hands lay apon my chest Lay upon my sin, but I do it for green And in your mind you are blind And your back turn so fine Where were you when I needed you most

So mother so father I'm on my hands and knees So mother so father Stop scrounging for what's left of me

My self-indulgence to blame For all of the shame in the family You don't know what it's like How I feel how I cry How I hate the way I hate my life

So mother so father I'm on my hands and knees So mother so father Stop scrounging for what's left of me

Pues madre, y padre Esta vida no quiero vivir

So mother so father I don't want to live this way So mother so father I'm scrounging for what's left of me

So mother so father I don't want to live this way So mother so father Stop scrounging for what's left of me Ünloco
