

Between a Rock and a Hard Place

UFO

I'm feelin' static
Nothing's moving here for me
Dead un-romantic
That's the way life's squeezin' me
I get the feelings
When I'm pushed in a situation
Like climbin' ceilings
This is a case of renegotiaion
I ain't the soft touch you think I am
Ain't no pussy to think you care

Between a rock and a hard place
I'll make sure you remember my face
Between a rock and a hard place
You're just something I will erase

I'll tell you something
That you never thought before
When I get dangerous
There's no such thing as outside the law
Let me tell you, for your information
You're gonna need rehabilitation

Between a rock and a hard place
I'll make sure you remember my face
Between a rock and a hard place
You're just something I will replace

There's no giving up, no more losing ground
Hang on in
We're gonna stick around, movin' up
You can't bring me down..
