

Boogie for George

UFO

Goin' down to George's where you just have been
To see if you've been boogie-ing, ah you know what I mean
My left leg's dragging my right leg's limp
My heads so wavy and I can't feel it
I gotta see you baby, you'll be alright
I want to boogie baby, boogie tonight

Well old George is boogie-ing he's been a boogie-ing with you
Ah I want to boogie with you baby
I want to boogie all night long
I want to move with you I want to move
I want to shake, want to boogie too
I want to boogie...boogie
