

## Can You Roll Her

UFO

Fast as light our jets were burnin'  
On the road, a distant siren's song  
Hands upon my engine's growin'  
Vincent's deep throat breathin' out so strong  
I can hold her, can you roll her?  
Riding like there's no tomorrow  
The siren's song sure is growin' stronger  
Shadow reached a high note  
And in the distance, electric lights no longer  
I can hold her, can you roll her?  
I can hold her, can you roll her?  
I can hold her, can you roll her?  
Fast as light our jets were burnin'  
On the road, a distant siren's song  
Hands upon my engine's growin'  
Vincent's deep throat breathin' out so strong  
I can hold her, can you roll her?  
I can hold her, can you roll her?  
I can hold her, can you roll her?  
I can hold her, can you roll her?  
I can hold her, can you roll her?  
I can hold her, can you roll her?
