## **Can You Roll Her**

Fast as light our jets were burnin' On the road, a distant siren's song Hands upon my engine's growin' Vincent's deep throat breathin' out so strong I can hold her, can you roll her? Riding like there's no tomorrow The siren's song sure is growin' stronger Shadow reached a high note And in the distance, electric lights no longer I can hold her, can you roll her? I can hold her, can you roll her? I can hold her, can you roll her? Fast as light our jets were burnin' On the road, a distant siren's song Hands upon my engine's growin' Vincent's deep throat breathin' out so strong I can hold her, can you roll her? I can hold her, can you roll her?
