

Doing It All for You

UFO

Lights turn red to green
I haven't been spotted I seen
Four more blocks and Im safe
Make it clean without a chase
There's something special, certain feeling
I can't blow this one for sure
Ive been nervous, anxious and edgy
This ones the last one therell be no more
What Ive got to do tonight
Take the car and meet the man downtown
Its easy darling, working away
Before the words got around
* and I'll do it all for you, oh yes I will
This time Im coming through, oh yeah
I said Im burning, I been rolling
This cars turned up to make it fly
Don't worry darling just get ready
Tonight were gonna be going out in style
If anyone comes calling around
Don't answer cause you're my alibi
So just trust me, kiss me and love me
Chasing the golden mile
* repeat
[instrumental]
