

Follow You Home

UFO

If you want me to do everything girl just for you
Change your mind telling me lies
Come and see you in the morning come and see u in the morning

Time after time, told me lies these are things girl which I despise

If I go wrong in your eyes, leave you girl in the morning,
Leave you girl in the morning

(instrumental)

As time goes by wish you had never treated me so bad
You know you're only going to want me back
Far away in the morning far away in the morning

If you want me to do everything girl just for you
Change your mind telling me lies
Come and see you in the morning, come and see you in the morning
g

Follow you home in the morning, follow you home in the morning
