

Gone in the Night

UFO

Honey kick your shoes off now
And stay another night
Lets not talk too seriously
We don't wanna fight
Now I don't care about your reputation
Or how you got it made
All I want is for you to stay
Don't want a charade
*and the lights go down
Who you with tonight
It aint so easy holding on
Everything you seem to do babe
Just turns out so wrong
Youre gone in the night
Youre gone in the night
Youre gone in the night
People try to tell you now
About responsibilities
Those married-men dos and don'ts
How it ought to be
But I don't care what they say
Don't wanna hear what's true
As long as you want me baby
You know I need you
(repeat*)
