

## Gone in the Night

UFO

Honey kick your shoes off now  
And stay another night  
Lets not talk too seriously  
We don't wanna fight  
Now I don't care about your reputation  
Or how you got it made  
All I want is for you to stay  
Don't want a charade  
\*and the lights go down  
Who you with tonight  
It aint so easy holding on  
Everything you seem to do babe  
Just turns out so wrong  
Youre gone in the night  
Youre gone in the night  
Youre gone in the night  
People try to tell you now  
About responsibilities  
Those married-men dos and don'ts  
How it ought to be  
But I don't care what they say  
Don't wanna hear what's true  
As long as you want me baby  
You know I need you  
(repeat\*)
