

## Let It Roll

UFO

Cold run speed highway was the place where we'd all go  
When our nerves were razor sharp, and we'd all let it roll  
Let it roll, let it roll, let it roll, let it roll  
Our machine's geared up, and we're really layin' it down, layin'  
' it out  
Let it go  
When these wheels get rollin', let them roll right over you  
'Cause I'm well greased down, and I'll always win it through  
Let it roll, let it roll, let it roll, let it roll  
Machine's geared up, and we're really layin' it down, layin' it  
out  
Let it roll
