

Love Lost Love

UFO

Saturday night, all alone lookin' for some thrills
Try to catch the band's last song
Back stage pass really showin' out
Feel that's where I belong
Sittin' down, all the big stars at the bar
Really have a rock vocation
Momopemania, schizophrenia
Rise to any situation
Of old lost love
Where will you go
When the show is over?
Nobody wants to know
We need to feel
Something that's real
'Cause you're losin' from the start
So be careful with your heart
We need to feel
Something that's real
'Cause you're losin' from the start
So be careful with your heart
Papa's in the next bed
And they're dancing cheek to cheek
And I understand their hot wire conversation
Yes, you're pretty, who needs a pretty face
With a hot lips reputation
Of old lost love
Where will you go
When the show is over?
Nobody wants to know
